

Team We-Scan

Unpack the Key Issues for Your Team, Together

Select Complimentary Service

Compassionate leadership in collaboration with your team.

- Is your big question right now, "Why am I not getting the results from my team that I expect?"
- Are you the founder, chief executive or leader of your business or unit?
- Do you have the mandate to deepen leadership and expand business outcomes?
- Have you struggled in the past to execute your strategy?

Yes to all four? Then let's book you in for your complimentary, no obligation We-Scan service, subject to terms and availability.

Then you and your team can collaborate to get a bird's eye view on what is really important.

We explore four key areas together.

Focus

Your purpose, culture and strategy.

Connection

How you work together, side by side.

Competence

Your capacity to scale up and grow sustainably.

Flow

How you and your team are engaged for excellence.

What is the process?

1. Chat to our team about your objectives, challenges and team dynamics.
2. Book your one-hour online session, with just you, or individually with each executive team member, depending on the We-Scan journey agreed.
3. You and your executive team then complete our We-Scan survey to support your thinking and our preparation, which should take a maximum of 20 minutes per person.
4. We will use the survey as our basis for the We-Scan session and summarise key insights into a report that you can action immediately.
5. If there are particular areas you need support in, we can then discuss next steps.
